

2016

# Introduction to Programming

THURSDAY

DAY (007-359)

2nd Week

Appointment

Notes

Work to do

①

## C language:

# Successor of B language

# Dennis Ritchie in 1972 at Bell labs.

→ C because to write kernel of Unix OS.

↳ So it's a System Programming language

Many softwares are written in C.

Ex:- Oracle, Android, Web browser, Device Drivers,

↓  
Core library

↓  
Major Part

Unix OS.

# Standardized by ANSI in 1989

# C-Program → Compiler → Object Code.
